

WOODLAND HILLS, PA

Woodland Hills School District Call to Climate Action Resolution

OVERVIEW

**RESOLUTION
540.19**

**ADOPTED
7/17/2019**

- Establishes a Climate Change Committee that will be tasked with developing an implementation plan for climate action in the Woodland Hills School District.
- Resolves to develop climate literacy educational opportunities and curriculums, more sustainable facilities, operations and transportation, and climate-friendly food services and waste reduction programs.
- Emphasizes engagement with the local community and advocates for policy-makers to address the climate change crisis.

**CLIMATE
JUSTICE AND
YOUTH VOICES
ARE CENTRAL
TO THIS BILL**

TARGET AUDIENCE

This resolution will impact the Woodland Hills School District's 3,200 students, as well as the staff and faculty responsible for teaching about climate action and making sustainability a priority in school facilities, operations, and transportation.

COALITION

A Pittsburgh-based environmental nonprofit, Communitopia, led the advocacy efforts with the help of Schools for Climate Action and 8th grade students that participated in a Climate Change Workshop. During the workshop, students sent letters to the school board to push for climate action in their school district.

FUNDING

No funding is associated with this resolution.

IMPACT

The Woodland Hills School District is the first in Pennsylvania to implement a climate action resolution, and hopes to lead the way for other school districts to do the same.
