JACK G. MAYNARD, JR. BIO
Author, musician, playwright.

Sharing my music and literary works is a matter of the heart. My hope is that you experience a portion of my journey on this amazing and beautiful planet.

“Life is a Cycle on the Planet Earth” is a children’s environmental musical that has been performed in lots of grade schools, a summer music camp and a professional theater in the U.S. The reviews have been great.

“Guitar Conversations” is a CD compilation of 13 of some my original songs.

“Angel Diamonds from the Sky” is a children’s Christmas story of how the angels created snow diamonds as a perfect gift for Jesus. It’s available on Amazon.

“The Love Store” is a children’s chapter book for ages 9-14. It was written to demonstrate how important character traits can change the world and create a successful life through the power of love.
